DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/11/06 has been entered.

Response to Amendment

2. The amendments to the abstract of the disclosure in the submission dated 12/11/06 are acknowledged and accepted. In view of these amendments, the objections to the specification in Section 11 of the Office Action dated 8/7/06 are respectfully withdrawn.
3. The amendments to Claims 3 and 8 in the submission dated 12/11/06 are acknowledged and accepted. In view of these amendments, the objections to the claims in Section 12 of the Office Action dated 8/7/06 are respectfully withdrawn.
4. The declaration under 37 CFR 1.132 filed 12/11/06 is sufficient to overcome the rejection of Claims 1, 3-12, 14 based upon inventorship under 35 U.S.C. 102(f).

Response to Arguments

5. In view of the submission of the declaration under 37 CFR 1.132 above, as well as Applicant's arguments, see in particular Pages 6-7 of the submission, filed 12/11/06, the rejections of Claims 1, 3-12, 14 in Section 14 of the Office Action dated 8/7/06 have been withdrawn.
6. Further, in view of the submission of the declaration under 37 CFR 1.132 above, the objections to the oath/declaration and to Applicant's claim to priority in Sections 8-9 of the Office Action dated 8/7/06 are respectfully withdrawn.

Allowable Subject Matter

7. Claims 1, 3-12, 14 are allowed.

REASONS FOR ALLOWANCE

8. The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable over the cited art of record for at least the reason that the cited art of record fails to teach or reasonably suggest a projection optical apparatus, as generally set forth in Claim 1, the apparatus including, in combination with the features recited in Claim 1, at least three projection units being provided, wherein at least three display devices among the display devices in the projection units display images of mutually different colors, and the diffusing plate having such a diffusion action that the exit pupil images are each projected in an at least partially overlapping fashion. Claims 3-12 are

dependent on Claim 1, and hence are allowable for at least the same reasons Claim 1 is allowable.

Claim 14 is allowable over the cited art of record for at least the reason that the cited art of record fails to teach or reasonably suggest a stereoscopic viewing system, as generally set forth in Claim 14, the system including, in combination with the features in Claim 14, a first projection member comprising at least three projection units, a second projection member comprising at least three projection units, and the diffusing plate has such a diffusion action that each of exit pupil images at the first given position is projected in an at least partially overlapping fashion and each of exit pupil images at the second given position is projected in an at least partially overlapping fashion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
